

ESSENTIAL OILS & BOTANICAL EXTRACTS

FOR PERSONAL CARE
INNOVATIONS

SENSIENT®
ESSENTIAL OILS

Elevate your formulations
with nature's finest.

Our essential oils and botanical extracts
are designed for brands that value
clean beauty and authentic botanicals.

What We Offer:

- **Essential Oils**

Meticulously sourced and manufactured to preserve the unique characteristics and aromatic profile. We manufacture tailor made essential oil compositions thanks to our extensive experience and know-how, allowing us to meet specific needs or application requirements.

- **Liquid CO2 Extracts**

Derived using state-of-the-art Liquid CO2 extraction technology, which allows for the extraction of natural scents by using only clean label solvents, making it environment friendly and perfectly suited for projects that require clean and true-to-nature scent formulation.

- **Terpeneless Botanical Extracts**

High-performance extracts that ensure the highest quality and potency in each formulation and help create vibrant, authentic and powerful scent profile.

Why Choose Sensient?

Global sourcing and manufacturing enable us to customize the best solution for your product's success. Manufactured at our facilities in Germany and the UK, our essential oils and botanical extracts benefit from the extensive expertise, ensuring premium quality and consistency in every batch – making it an optimal choice for sophisticated, unforgettable sensory experience.
